Two-Thirds of the Bosses Have Not Obeyed the Law.

The decision of the General Term of petency before the Examining Board of Plumbers they cannot conduct a plumb-ing business, has had the effect of causa rush of applicants for Ecenses to

the Board of Health to-day. The decision was only announced yesterday, but the news seems to have spread with marvellous rapidity among he thousand or more master plumbers doing business in New York.

Of this number only 309 have complied with the law. The decision was rendered upon an appeal taken to the General Term by Benjamin Bloom, an unlicensed master Benjamin Bloom, an unlicensed master plumber, of 88 Rivington street, who brought an action against Rosa Saberski to recover the amount of a plumbing bill. She contested the action upon the ground that inasmuch as he had failed to comply with the law in taking out a license certifying to his competency, he was not entitled to pay. This is the first case of the kind that has been adjudicated under the new law massed in 1891. It will undoubtedly, President Wilson and reputable plumbers declare, have a salutary effect.

There are, according to a complaint made by the Master Flumbers' Association to the Board of Health, about 700 unlicensed master plumbers doing business in New York, of which a large number are incompetent. The result is that in many instances the public receives inferior service for the same rate of wages fixed by the Master Flumbers' Association, which guarantees competent mechanics and first-class work.

of the magnificent mercantile structures now being erected, was furnished to President Wilson several days ago by the Master Plumbers' Association, with a request that he take some action with a view of cour pelling these men to comply with the low or cease doing business. President Wilson expressed an opinion off-hand to-day, that the Board of Health was powerless to act in the premises. The Examining Board consists of five

The Examining Board consists of five members, two of whom, according to the law, must be master plumbers of not less than ten years' experience, one journeyman plumber, the chief inspector of plumbing and drainage of the Building Department and the chief engineer in charge of sewers of the Board of Health. It costs \$5 to get a license. It is expected that this decision will result in the closing up of numerous plumbing shops.

It will also be a temptation, perhaps, to some people to employ non-licensed plumbers, as they would not be liable for debts thus contracted under the law.

THE WHIPPING POST.

What Nellie Bly Saw in a Delaware Jail Recently.

Nellie Bly witnessed the public whip plag of prisoners in a Delaware fail last week. She has embodied her expe rience in a sympathetic article full of in terest, to even the most prosaic prisonkeeper. One man was put in the stocks
